A former Republican National Committee member and ex- US presidential candidate accuses the US government (not just Larry Silverstein and his overseas handlers) of the state terrorism…

Captain Dan Hanley, et al...

Dear Senator Johnson, Rep. Luna,

As we all await what is reportedly 2,000 pages of "irrefutable evidence" regarding one day September 11, 2001 to be delivered by Richard Gage, Ted Walter, Piers Robinson, Mick Harrison and Captain Raul Angulo, this email is addressing another matter that Congress does have authority over as the legislative branch of the federal government and **missing elements of 9-11** Truth.

We totally agree with Senator Johnson's assessment that the 9-11-2001 Truth matters must go through the Article 3 courts that do have the authority, jurisdiction, court ordered discovery, enforcement and subpoena powers that the Senate and House do not have.

We also agree that public awareness is very much needed. However, as has happened on full disclosure regarding the assassination of JFK, the Epstein files, and even September 11, 2001, my team and I have little faith that the US government will seriously investigate its own crimes against We the People or any other nation.
Our civil RICO, bioterrorism, VICAR, etc. lawsuit will be about 100-150 pages, say all that needs to be said for litigation, and more important names a long list of defendants. The exhibits and court ordered discovery documents will be voluminous. Even the interrogatories prior to depositions of the defendants will be voluminous.

Once it is filed, we think tens of millions of Americans will be immediately awakened and many more all over the world. In addition to the US losses on September 11, 2001, 61 other nations lost 372 of their citizens. All of them US and foreign are demanding justice that Washington DC avoids like the plague.

I have read the NFPA (National Fire Protection Association) document written by Captain Raul Angulo. He is correct that the fires of September 11, 2001 could not have possibly caused the total global collapse of World Trade Centers 1, 2 and 7.

It is a known fact that nowhere on Earth has any fire, regardless of intensity and duration, caused the collapse of any high-rise steel building except the 3 in NYC on September 11, 2001. That alone is both a smoking gun and clear evidence of criminal wrongdoing. The most recent example being the 2025 Hong Kong fires that burned for about 2 days, involved multiple towers but not one of them collapsed.

I am a former architect engineer that may know more about the structural design of WTC 1 and 2 than anyone in the current AE911Truth.

My entire team and I are still waiting to hear from the victim families their thoughts as to how "radical Islamic males" wired those three buildings for controlled demolitions in NYC. We are also waiting for AE911Truth and IC911Justice to respond as to why large explosions in the basement levels of WTC 1 and 2 totally took out the freight elevators before either jet hit WTC 1 or WTC 2. There is a reason and it is damned sinister.

My team and I would love to hear from AE911Truth, IC911Justice or any other such group who they think the approximately 300 defendants are. Many are not obvious if certain evidence trails were missed or unknown to them by focusing only on September 11, 2001 and a 9 hour time window. There are other ways to define “irrefutable evidence” that do not deal with 1 day in September 2001.

We do agree with Richard Gage that all 3 towers were controlled demolitions. We differ in how to present that to a Court and Jury in a criminal case with civil remedy. Due to who is named defendants, errors would be akin to going swimming in a shark feeding frenzy. The defendants will fight back aggressively and viciously.

This is an excerpt from our lawsuit and addresses another 5 deaths directly related to September 11, 2001 and one week later on September 18, 2001:

"In September 2000 PNAC released "Rebuilding America's Defenses" a report that promotes "the belief that America should seek to preserve and extend its position of global leadership by maintaining the preeminence of U.S. military forces". The report states, **"advanced forms of biological warfare that can 'target' specific genotypes may transform biological warfare from the realm of terror to a politically useful tool"**. (See Exhibit G)

Does that read like a great and noble nation with integrity, or are there bioterrorism monsters lurking in DC and have undue influence on US foreign policy? We know the answer to that. Do any of the readers of this email know the correct answer?

As you read on understanding why that is inserted above will be easier to grasp. The above is not a rhetorical question because quite a few defendants are facing very serious criminal charges due to how they have implemented that PNAC "suggestion".

Most Americans do not know or do not remember who was attacked with weaponized anthrax. Tom Brokaw and other liberal media voices who were not Pro-Bush Cheney. Senator Patrick Leahy (D-VT), then chairman of Senate Judiciary Committee, Senator Russ Feingold (D-MN), only Senator to vote NO on the Patriot Act, and Speaker of the House Tom Daschle (D-SD).

Weaponized anthrax does not know the difference between conservative or liberal. This attack was totally along party lines.

Mueller's FBI lied when it stated that the "Amerithrax" investigation was "the most intensive and thorough in the bureau's history". They had BioPort Vaccines LLC on the Suspect List but conveniently left off that list their new owners DynCorp, private military corporation who acquired BioPort, changed the name to DynPort Vaccines LLC, moved offshore to evade billions in anthrax vaccine liabilities and were based where I used to live 1990 to 1996, Reston VA.

On three separate occasions I personally called the FBI and had clashes on their intentionally overlooking the most likely suspect. I wrote about and disclosed it in Chapter 5 of my book "One Way Ticket to Crawford Texas", published in 2004 and identified DynPort Vaccines

LLC, Reston VA. If I can find that evidence trail in less than 15 minutes, makes a person wonder what FBI was focused on other than coverup. I also clearly stated the huge damage those vaccines have done to the US military and others. It is actually a Title 18 criminal offense to do anything that impairs the US military in defending the United States.

This is the same DynCorp that has been in bed with the Bush Family since Iran Contra, Desert Shield - Desert Storm, Afghanistan, Iraq 2003 and they have been paid billions of US dollars. This is also the same DynCorp that was busted in the UK and State of Texas during Clinton and Bush Administrations for sex trafficking underage Bosnian and Serbian teenage girls to sexual predators in the UK and US on a scale that would make Jeffrey Epstein jealous. Some reports are up to 200,000 under age girls, many orphaned due to US and NATO hostile actions. They were not offered a better life, merely handed over to sexual predators.

For those who are ignorant of historical facts, former Serbian president Slobodan Milosevic was arrested in 2001 by UNMIK to face war crimes charges before the International Criminal Court. He died in prison in 2006 awaiting trail but was posthumously found to be innocent. Some copied on this email have a PDF of what I wrote as "Part VI - Pop Goes the Bush Mythology Bubble" as to the UNMIK and Kosovo role directly related to both September 11, 2001 and a flight bound for Afghanistan that departed about 1 hour after WTC 7 was reduced to a rubble pile in NYC. Onboard that flight were crates containing hundreds of millions of US dollars.

The ICC sent investigators to Bosnia and Serbia and verified what they were told by many people. The United States was arming Bosniak Muslims to kill Serbian Christians to justify the US and NATO intervention. Slobodan Milosevic was not "the Butcher of Bosnia"; certain Americans and their Bosnia proxies were.

That evidence trail alone has added quite a few named defendants in our lawsuit that Americans are clueless as to why, unless they read my book and some of the many articles I have written and know what the real historical facts are.

One of the more interesting and factual videos I have seen of Richard Gage is his presentation of the uncanny similarities between the September 11, 2001 coverup and the SARS CoV-2 / Covid-19 coverup. They are almost lock step identical and certain named defendants pertaining to September 11, 2001 were also directly involved in the Covid-19 fraud matters. Follow the right trails and do the math is how crimes are solved.

We think most Americans and many foreigners know about Senator Johnson's Covid-19 inquiry that basically did not go anywhere. Additionally, the battle for years between Senator Rand Paul, Fauci and the US health agencies DHHS, NIH, CDC and NIAID was stonewalled from Day 1.

If a person digs a little deeper they find the State Department Global Engagement Center, the director of which was handpicked from the CIA by Mike Pompeo, was directly involved in Covid-19 / SARS CoV-2 fraud. It better explains his comment on US TV "we're in a live exercise here".

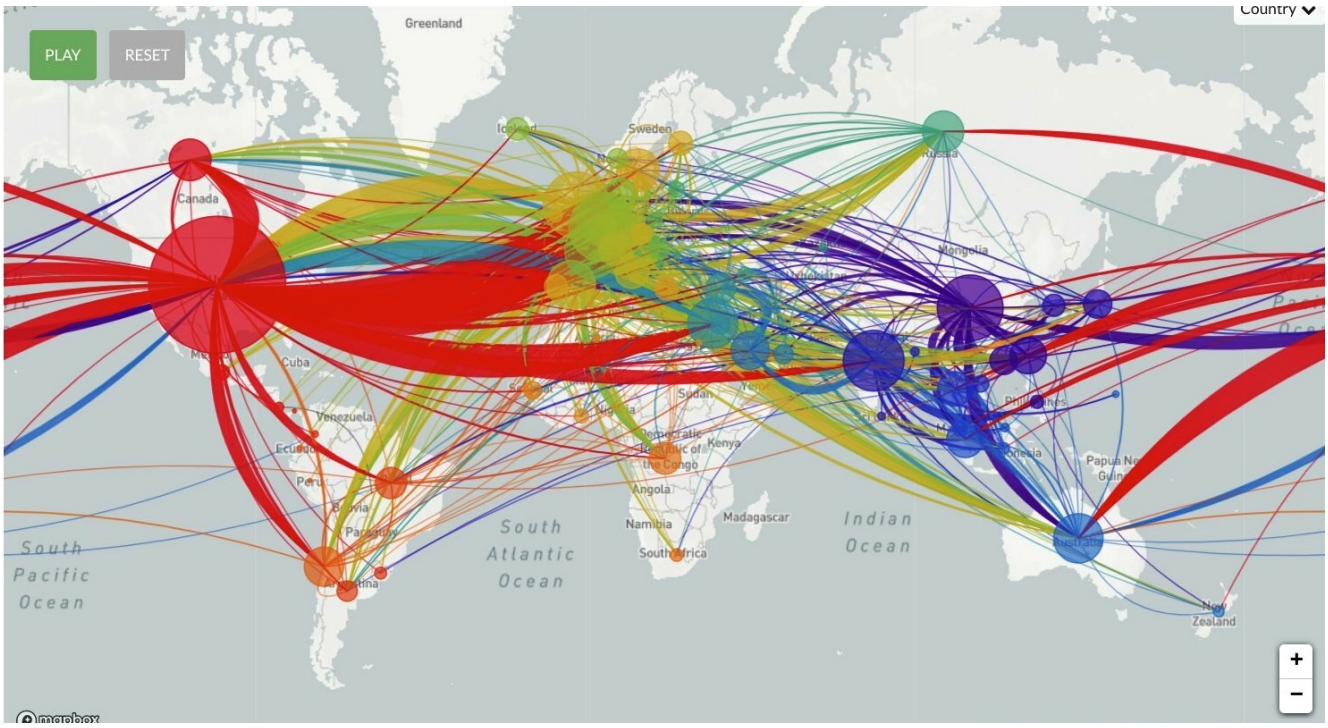
Two things happened in the Czech Republic that most Americans and Europeans are not aware of to this day. First, a major scientific paper was refused publishing in the US that exposed something major that CDC did when it blasted out all over the world a fake genome of the alleged SARS CoV-2. That March 2020 scientific paper was based on 1,795 cases that were common cold, allergies and regular flu, not one single case of Covid-19.

Secondly, a criminal bioterrorism action was filed in Prague by one of my top executives and sent the Czech government into total panic mode. That was filed April 21, 2020, so take note of the two dates.

We were tracking all Covid Dashboard websites and noticed some major statistical glitches and outright misreporting of the alleged spread of SARS CoV-2.

We discovered this website www.nextstrain.org as the source and clearly stated on that site was SARS CoV-2, Type A (the origin) was shown in RED. Asia allegedly had Type B and Europe Type C. It was all made up and fed out to the other websites by the US government.

This is "Exhibit G" mentioned above in the insert:



When starting from the right point, it is not hard to figure out who attacked whom. The "red" is definitely the aggressor.

What you are looking at above is an animated global graphic of this alleged spread and it starts in USA as Point "0". When Nextstrain realized we had downloaded the global graphic and all regional graphics, they rushed to delete those from their server and changed from the "war game missile attack" to various size bubbles as to who received the most damage.

From another nation and team, we have now amassed close to 400 FOI responses from all over the world. Not 1 health ministry, hospital, research center, scientist, laboratory, etc. has ever isolated and actually seen a SARS CoV-2, that was billed by the US CDC as "the most deadly airborne virus they had ever discovered".

In 2024, former Dutch Health Minister Fleur Agema was being interrogated by her Parliament as to why none of the Covid-19 response measures were even remotely in touch with the realities on the ground.

On no less than 6 times she clearly told her Parliament what the problem was. That being obligations to NATO and its titular head US Pentagon, and the Dutch counterterrorism unit NCTV. We had uncovered that same thing in the Czech Republic in early 2020.

I cannot speak for other people, but I do not want the Pentagon having anything to do in medical matters or my health, which are excellent and I never accept vaccines for something my body will cure on its own.

The Czech Republic had 5 health ministers from September 2020 to May 2021. I personally had a hand in getting 3 of them fired with hard evidence they could not handle with a coherent response.

I do not totally agree with Richard Gage's analysis on September 11, 2001 but his analysis of the 9-11 and Covid-19 fraud coverup similarities is 100% correct.

The Western main stream media, especially the United States have been negligent to the point of incompetence and woefully inept on facing reality or asking any real or relevant questions. They have failed over and over again to state what the real objectives were on February 24, 2022 when Putin initiated the SMO to fix what is wrong in Ukraine.

First, Russia's air force and navy virtually wiped out the Ukraine air force and attack helicopters. Shortly before Russia took action UNHRW reported that since July 2014 when the Ukraine slaughter of Donbas started there were 40,000 to 42,000 dead in Donbas and many times that wounded plus huge property damage. Russia also destroyed the world's largest jet that it had built for their space program, the Antonov An-225 Mriya, 6 jet engines. Ukraine and NATO were using that jet to quickly arm for more attacks on Russia.

Second, Russian airborne soldiers seized the nuclear sites at Chernobyl and Zaporozhye. The IAEA were already onsite at both locations investigating "irregularities". That usually means nuclear materials are unaccounted for or missing. The IAEA voluntarily handed over the security for both sites to Russia.

Third, the US Embassy in Kiev had 9 documents posted on their website as if boasting about those Pentagon funded bioweapons labs. We have those 9 documents that were immediately deleted and the US Embassy was screaming "Russia disinformation". Later that day DC chimed in with that same message. Russia reportedly seized 14 such labs, secured evidence and destroyed them and a total of what was reported as 46 sites.

Russia submitted 310 pages to the UN Security Council. The US, UK and France have vetoed every attempt to have those labs investigated. Even that evidence added more defendants to our lawsuit because it was all verified.

Within 24 hours of the SMO starting, a Ukraine friend of mine sent me the following documents that were issued same day by Ukraine military HQ and Ukraine SBU, that shares offices with the CIA in Kiev. The Ukraine SBU is akin to the Nazi Gestapo and they are in bed with the US CIA.

Some of you may recall that Biden's CIA Director Burns requested an emergency meeting with his Russia counterpart the Director of FSB. The reason for that meeting in Turkey was the Russian navy put a Kalibr cruise missile into the joint SBU - CIA offices in Kiev. The CIA has been aiding and abetting Ukraine Nazis since 1947 and even prior to that the US Army OSS being converted into the CIA after World War 2.

The largest shareholder of MetaBiota of San Francisco is, or was, Hunter Biden. Battelle Corporation of Ohio is a CIA contractor. Any non-profit with 40,000 to 60,000 employees according to their own website is suspect if involved in bioweapons.

My 7 original scientists and I parted company with DARPA and Pentagon TSWG when we were informed that the only way we could continue to work together was if we subordinated to Battelle. That was in the Spring of 2004.

The Obama Administration ramped up the "genetic specific bioweapons research" with the Richard B. Lugar Lab near Tbilisi Georgia in 2012. Then following Kiev Maidan in 2014 that same push was hard into Ukraine seeking a genetic specific way to kill only Slavic people.

This is being done in Ukraine, Georgia, close to China, in Africa and South America on the Pentagon budget and human testing is being done because it is illegal in the United States. I am not the only person to have reported on this illegal conduct.

If were a member of either the Senate or US House I would have been on the war path long ago on some key matters.

George W. Bush announced Project BioShield in his 2003 SOTU address. By the end of 2003 a compliant Congress made it a law. Bush tripled the number of US labs doing risky biological gain-of-function research under the pretense of counterterrorism and placed control of all such labs under Battelle. That is exactly why my scientists and I told DARPA absolutely NO!

The stated reason for Project BioShield was to force vaccinate 10,000,000 First Responders and later all Americans for anthrax and smallpox. Both of those vaccines are known to be extremely harmful for humans and there were no such outbreaks anywhere on this planet at the time.

In 2006, Bush pushed for the creation of BARDA and a new military position inside of the DHHS as Assistant Secretary for Preparedness and Response, or ASPR. Again, a compliant Congress fast tracked it into law.

Joe Biden is on video bragging that he started The Patriot Act in 1994, not long after the February 26, 1993 bombing of WTC 1 North Tower. More Americans need to be aware that during the trial of the bomber it came out that the FBI had directly aided and abetted that bombing.

1. The Patriot Act should be abolished or seriously amended to include illegal actions by the US government itself. This law has run roughshod over the Constitution and Bill of Rights. Congress needs to remind itself that such rights are given by God, not by DC decree. Trying to treat all Americans as potential Al Qaeda suspects or terrorists is ludicrous at best; and
2. The NDAA should be amended barring the Pentagon, Battelle and others from developing illegal bioweapons, or abolished and come up with a better law; and
3. Project BioShield should be abolished; and
4. BARDA should be abolished or specifically forbidden to take over US health care via the ASPR military position in the DHHS; and
5. Every law passed and inflicted upon We the People, should apply to every member of the US government as well without exception; and
6. Abolish the Magnitsky Act of 2012. That law is blatantly anti-Russian for that nation enforcing their own criminal laws against William F. Browder, his Hermitage Capital, et al; and
7. Abolish the Smith Mundt Modernization Act, which has opened the flood gates of DC and MSM lying to Americans and pushing blatant propaganda at the citizens of the United States.

That is just a start but I think general public will get the hint, there is much to fix, starting with **Washington DC** and its usurpations and abuses against the We the People citizens of the United States and who pay their salaries and everything else they do "In our name" that the citizens are fed up with.

The US is now $37 trillion in debt mostly due to September 11, 2001 and this DC psychosis that they think they are "defending America" while they are actually defending the status quo in DC. It is time for some serious changes because We-the-People have had enough of Washington DC...

With best regards,
Karl Sc
